

PARENT ONBOARDING ANDROID

Before initiating the onboarding process, please kindly make sure that your device is fully compatible with SafeToNet (Android 6 or above), is fully charged and successfully connected to the internet.

Helping to make the online
world safer.

Parent's Device

Child's Device

Start creating a parent's account by tapping on 'Parent's Device', and then tapping on 'New User? Create and Account'.

The parent's device can be configured to safeguard the child's devices.

A few more details will be asked, such as your **'Country of Residence'** and **'Mobile Number'**.

Important: Please make sure to insert the correct mobile number, as this will become the primary link to your account.

The screenshot shows a mobile application interface for entering user details. At the top, there is a dark blue header with a back arrow and the text "Country of Residence...". Below the header is a progress indicator consisting of four dashes, with the first three being orange and the last one grey. The main content area contains two sections: "Country of Residence:" with a light grey rounded rectangular input field containing the text "Country"; and "Mobile Number:" with a light grey rounded rectangular input field containing "Mobile Number", preceded by a smaller rounded rectangular field containing "+44". At the bottom of the form is a large, prominent orange rounded rectangular button with the text "Next".

Here we invite you to read and agree to the **Terms of Service** and **Privacy Policy**.

To use SafeToNet, you need to agree to both our **Terms of Service** and **Privacy Policy**.
